Subject Index

Abdominal pain, recurrent, 321(5):352–354

Abscess
- psoas muscle abscess caused by *Mycobacterium tuberculosis* and *Staphylococcus aureus,* 321(6):415–417
- role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155

***N*-Acetyl-β-D-Glucosaminidase,** increased excretion of β_2-microglobulin and, in gestational week 30, 321(3):168–172

Acne conglobata, and hidradenitis suppurativa associated with spondyloarthropathy, 321(3):195–197

Adenovirus, poly-L-lysine-based molecular conjugate vectors: high efficiency gene transfer system for human progenitor and leukemia cells, 321(2):129–136

Adrenal insufficiency
- in HIV infection: review and recommendations, 321(2):137–144
- lymphocytic hypophysitis in man presenting with hypercalcemia, 321(3):206–208

β2-Adrenergic receptor, polymorphisms in candidate asthma genes, 321(1):11–16

Albuminuria, increased excretion of *N*-acetyl-β-D-glucosaminidase and β_2-microglobulin in gestational week 30, 321(3):168–172

Aldosterone, cardiac and renal dysfunction in chronic heart failure: relation to neurohumoral activation and prognosis, 321(6):359–366

Allergic bronchopulmonary disease, caused by *Bipolaris hawaiiensis* presenting as necrotizing pneumonia, 321(3):209–212

Aminorex, anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299

Analgesics, NSAIDs and kidney: safety of selective cyclooxygenase-2 inhibitors, 321(3):181–190

Anti-neutrophil cytoplasmic antibody testing, microscopic polyangiitis presenting as idiopathic pulmonary fibrosis, 321(3):201–202

Antibiotics, effect of bone biopsy in guiding antimicrobial therapy for osteomyelitis complicating open wounds, 321(6):367–371

Antibodies, absence of cross-reactivity to myeloperoxidase of anti-thyroid microsomal antibodies in patients with autoimmune thyroid diseases, 321(2):109–112

Antidepressants, severe symptomatic hyponatremia during citalopram therapy, 312(2):159–160

Antihypertensive agents, sexual dysfunction in hypertensive patients treated with losartan, 321(5):336–341

Antipsychotics, case report of olanzapine-induced hypersensitivity syndrome, 321(2):156–158

α1-Antitrypsin deficiency, biological answers to clinical questions, 321(1):33–41

Appetite suppressants
- anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
- valvular heart disease and, 321(4):285–291

Arginine, reversible sequestration of nitric oxide by hemoglobin during hemodialysis in end-stage renal disease, 321(2):113–123

Arthritis
- poststreptococcal reactive arthritis in adults, 321(3):173–177
- potential pathogenesis and clinical aspects of pulmonary fibrosis associated with rheumatoid arthritis, 321(1):83–88

Asthma, polymorphisms in candidate asthma genes, 321(1):11–16

Atrial fibrillation, in father and son after ingestion of cold substances, 321(5):355–357

Autoimmune disease
- absence of cross-reactivity to myeloperoxidase of anti-thyroid microsomal antibodies in patients with autoimmune thyroid diseases, 321(2):109–112
- 72-year-old man with confusion and nonoliguric renal failure, 321(6):381–387

Beryllium disease, 321(1):89–98

Bipolar hawaiiensis, allergic bronchopulmonary disease caused by, presenting as necrotizing pneumonia, 321(3):209–212

Bone
- effect of bone biopsy in guiding antimicrobial therapy for osteomyelitis complicating open wounds, 321(6):367–371
- Erdheim-Chester disease: a rare multisystem histiocytic disorder associated with interstitial lung disease, 321(1):66–75

Bronchiectasis, disorders of ciliary motility, 321(1):3–10

Calciuric response, to dietary salt of Dahl salt-sensitive and salt-resistant male rats, 321(5):342–347

Cardiology Grand Rounds
- mitral valve prolapse: review of literature, 321(6):401–410
- role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155

Cardiomyopathy, obesity, 321(4):225–236
- management of, 321(4):237–241

Cardiovascular disease
- appetite suppressants and valvular heart disease, 321(4):285–291
- atrial fibrillation in father and son after ingestion of cold substances, 321(5):355–357
- cardiac and renal dysfunction in chronic heart failure: relation to neurohumoral activation and prognosis, 321(6):359–366
- cardiovascular and pulmonary complications of obesity, 321(4):213–214
- cardiovascular complications of weight reduction diets, 321(4):280–284
- management of obesity cardiomyopathy, 321(4):237–241
- mitral valve prolapse: review of literature, 321(6):401–410
- obesity, hypertension, and the heart, 321(4):242–248
- obesity and coronary heart disease, 321(4):215–224
- obesity cardiomyopathy, 321(4):225–236
- role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155

Case Records of the VA Maryland Healthcare System/University of Maryland Medicine
- 41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3):191–194
- 72-year-old man with confusion and nonoliguric renal failure, 321(6):381–387

Chemotherapeutic agents, cutaneous reactions to, 321(5):327–335

Children, school absenteeism, parental work loss, and acceptance of childhood influenza vaccination, 321(3):178–180

Cholesterol embolization syndrome, livedo reticularis: underutilized diagnostic clue in, 321(5):348–351

Chronic fatigue syndrome, role of impaired lower-limb venous innervation in pathogenesis of, 321(3):163–167

Ciliary motility disorders, 321(1):3–10

Cirrhosis, prevention in liver disease, 321(2):145–151
Citalopram, severe symptomatic hyponatremia during therapy with, 312(2): 159–160
Cognitive dysfunction, 72-year-old man with confusion and nonoliguric renal failure, 321(6):381–387
Collagen vascular disease, potential pathogenesis and clinical aspects of pulmonary fibrosis associated with rheumatoid arthritis, 321(1):83–88
Common variable immunodeficiency, 321(1):42–48
Congestive heart failure
cardiac and renal dysfunction in chronic heart failure: relation to neurohumoral activation and prognosis, 321(6):359–366
management of obesity cardiomyopathy, 321(4):237–241
obesity, hypertension, and the heart, 321(4):242–248
obesity cardiomyopathy, 321(4):225–236
Coronary heart disease
cardiovascular and pulmonary complications of obesity, 321(4):213–214
obesity and, 321(4):215–224
Cosyntropin, adrenal insufficiency in HIV infection: review and recommendations, 321(2):137–144
Cyclooxygenase-2 (COX-2) inhibitors, NSAIDs and kidney: safety of selective COX-2 inhibitors, 321(3):181–190
Cyclophosphamide, Wegener granulomatosis, 321(1):76–82

Dermatology
challenging skin disorders, 321(5):301
cutaneous reactions to chemotherapeutic agents, 321(5):327–335
erythema gyratum repens, 321(5):302–305
glucagonoma syndrome, 321(5):306–320
hidradenitis suppurativa and acne conglobata associated with spondyloarthropathy, 321(3):195–197
livedo reticularis: underutilized diagnostic clue in cholesterol embolization syndrome, 321(5):348–351
thalidomide and its dermatologic uses, 321(5):321–326
zoster in patients infected with HIV, 321(6):372–380
Dexfenfluramine, anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
Diabetes mellitus, glucagonoma syndrome, 321(5):306–320
Dietary salt, calciuric response of Dahl salt-sensitive and salt-resistant male rats, 321(5):342–347
Dieting
appetite suppressants and valvular heart disease, 321(4):285–291
cardiovascular complications of weight reduction diets, 321(4):280–284
Drug adverse effects
anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
appetite suppressants and valvular heart disease, 321(4):285–291
case report of olanzapine-induced hypersensitivity syndrome, 321(2):156–158
cutaneous reactions to chemotherapeutic agents, 321(5):327–335
severe symptomatic hyponatremia during citalopram therapy, 312(2):159–160
sexual dysfunction in hypertensive patients treated with losartan, 321(5): 336–341

Echocardiography
appetite suppressants and valvular heart disease, 321(4):285–291
role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155
Emphysema, α1-antitrypsyin deficiency: biological answers to clinical questions, 321(1):33–41
Epidemiology, obesity and coronary heart disease, 321(4):215–224
Erdheim-Chester disease, rare multisystem histiocytic disorder associated with interstitial lung disease, 321(1):66–75
Errata, 312(2):161
Erythema gyratum repens, 321(5):302–305
Esophagus, primary lymphoma of, in chronically immunosuppressed patient with hepatitis C infection, 321(3):203–205
Exchange plasmapheresis, acute respiratory distress syndrome as major clinical manifestation of thrombotic thrombocytopenic purpura, 321(2): 124–128

Fatigue, role of impaired lower-limb venous innervation in pathogenesis of chronic fatigue syndrome, 321(3): 163–167
Fenfluramine, anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
Fever
41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3):191–194
unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200

Gallium-67 scintigraphy, unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200
Gene therapy
α1-antitrypsyin deficiency: biological answers to clinical questions, 321(1):33–41
poly-L-lysine-based molecular conjugate vectors: high efficiency gene transfer system for human progenitor and leukemia cells, 321(2):129–136
Genetics
beryllium disease, 321(1):89–98
introduction to symposium: clinical and molecular insights from uncommon lung diseases, 321(1):1–2
polymorphisms in candidate asthma genes, 321(1):11–16
Glucagonoma syndrome, 321(5):306–320

Hematology
acute respiratory distress syndrome as major clinical manifestation of thrombotic thrombocytopenic purpura, 321(2):124–128
poly-L-lysine-based molecular conjugate vectors: high efficiency gene transfer system for human progenitor and leukemia cells, 321(2):129–136
reversible sequestration of nitric oxide by hemoglobin during hemodialysis in end-stage renal disease, 321(2): 113–123
Hemodialysis, reversible sequestration of nitric oxide by hemoglobin during hemodialysis in end-stage renal disease, 321(2):113–123
Hemodynamics
management of obesity cardiomyopathy, 321(4):237–241
obesity cardiomyopathy, 321(4):225–236
Hepatitis C infection, primary lymphoma of esophagus in chronically immunosuppressed patient with, 321(3):203–205
Herpes zoster, in patients infected with HIV, 321(6):372–380
Hidradenitis suppurativa, and acne conglobata associated with spondyloarthropathy, 321(3):195–197
Histiocytosis, Erdheim-Chester disease: a rare multisystem histiocytic disorder associated with interstitial lung disease, 321(1):66–75
Histoplasmosis, 41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3): 191–194
Human immunodeficiency virus (HIV) infection
adrenal insufficiency in: review and recommendations, 321(2):137–144
41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3):191–194
zoster in patients infected with, 321(6): 372–380
Human leukocyte antigens, beryllium disease, 321(1):89–98
Hypercalcemia, lymphocytic hypophysitis in man presenting with, 321(3): 206–208
Hypersensitivity syndrome, olanzapine-induced, case report of, 321(2): 156–158

Hypertension
calciuric response to dietary salt of Dahl salt-sensitive and salt-resistant male rats, 321(5):342–347
impaired renal autoregulation: implications for genesis of hypertension and hypertension-induced renal injury, 321(6):388–400
obesity, hypertension, and the heart, 321(4):242–248
sexual dysfunction in hypertensive patients treated with losartan, 321(5):336–341
Hyponatremia, severe symptomatic, during citalopram therapy, 312(2):159–160
Hypothermia, atrial fibrillation in father and son after ingestion of cold substances, 321(5):355–357

Imaging
Erdheim-Chester disease: a rare multisystem histiocytic disorder associated with interstitial lung disease, 321(1):66–75
lymphangioleiomyomatosis, 321(1):17–25
nontuberculous mycobacteria, 321(1):49–55
role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155
unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200
Wegener granulomatosis, 321(1):76–82
Immunization
prevention in liver disease, 321(2):145–151
school absenteeism, parental work loss, and acceptance of childhood influenza vaccination, 321(3):178–180
Immunodeficiency
adrenal insufficiency in HIV infection: review and recommendations, 321(2):137–144
common variable immunodeficiency, 321(1):42–48
41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3):191–194
nontuberculous mycobacteria, 321(1):49–55
primary lymphoma of esophagus in chronically immunosuppressed patient with hepatitis C infection, 321(3):203–205
zoster in patients infected with HIV, 321(6):372–380
Immunoglobulin E receptor, polymorphisms in candidate asthma genes, 321(1):11–16
Infection
allergic bronchopulmonary disease caused by *Bipolaris hawaiiensis* presenting as necrotizing pneumonia, 321(3):209–212
effect of bone biopsy in guiding antimicrobial therapy for osteomyelitis complicating open wounds, 321(6):367–371
41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3):191–194
nontuberculous mycobacteria, 321(1):49–55
Pneumocystis carinii pneumonia in patients without HIV infection, 321(1):56–65
poststreptococcal reactive arthritis in adults, 321(3):173–177
primary lymphoma of esophagus in chronically immunosuppressed patient with hepatitis C infection, 321(3):203–205
psoas muscle abscess caused by *Mycobacterium tuberculosis* and *Staphylococcus aureus,* 321(6):415–417
role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155
school absenteeism, parental work loss, and acceptance of childhood influenza vaccination, 321(3):178–180
zoster in patients infected with HIV, 321(6):372–380
Influenza vaccine, school absenteeism, parental work loss, and acceptance of childhood influenza vaccination, 321(3):178–180
Interferon gamma, nontuberculous mycobacteria, 321(1):49–55
Interleukin-4, polymorphisms in candidate asthma genes, 321(1):11–16
Interleukin-6, unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200
Interleukin-12, nontuberculous mycobacteria, 321(1):49–55

Kartagener syndrome, disorders of ciliary motility, 321(1):3–10
Klinefelter syndrome, unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200

Left ventricular function
management of obesity cardiomyopathy, 321(4):237–241
obesity, hypertension, and the heart, 321(4):242–248
obesity cardiomyopathy, 321(4):225–236
Leukemia, poly-L-lysine-based molecular conjugate vectors: high efficiency gene transfer system for human progenitor and leukemia cells, 321(2):129–136
5-Lipoxygenase, polymorphisms in candidate asthma genes, 321(1):11–16
Livedo reticularis, underutilized diagnostic clue in cholesterol embolization syndrome, 321(5):348–351
Liver disease
α1-antitrypsyin deficiency: biological answers to clinical questions, 321(1):33–41
case report of olanzapine-induced hypersensitivity syndrome, 321(2):156–158
prevention in, 321(2):145–151
primary lymphoma of esophagus in chronically immunosuppressed patient with hepatitis C infection, 321(3):203–205
Losartan, sexual dysfunction in hypertensive patients treated with, 321(5):336–341
Lung disease
acute respiratory distress syndrome as major clinical manifestation of thrombotic thrombocytopenic purpura, 321(2):124–128
allergic bronchopulmonary disease caused by *Bipolaris hawaiiensis* presenting as necrotizing pneumonia, 321(3):209–212
anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
α1-antitrypsyin deficiency: biological answers to clinical questions, 321(1):33–41
beryllium disease, 321(1):89–98
cardiovascular and pulmonary complications of obesity, 321(4):213–214
clinical insights and basic science correlates in sarcoidosis, 321(1):99–107
common variable immunodeficiency, 321(1):42–48
disorders of ciliary motility, 321(1):3–10
Erdheim-Chester disease: a rare multisystem histiocytic disorder associated with interstitial lung disease, 321(1):66–75
41-year-old, HIV-infected man with fever, pulmonary nodules, and pancytopenia, 321(3):191–194
introduction to symposium: clinical and molecular insights from uncommon lung diseases, 321(1):1–2
lymphangioleiomyomatosis, 321(1):17–25
microscopic polyangiitis presenting as idiopathic pulmonary fibrosis, 321(3):201–202
nontuberculous mycobacteria, 321(1):49–55
Pneumocystis carinii pneumonia in patients without HIV infection, 321(1):56–65
polymorphisms in candidate asthma genes, 321(1):11–16
potential pathogenesis and clinical aspects of pulmonary fibrosis associated with rheumatoid arthritis, 321(1):83–88
pulmonary complications of obesity, 321(4):249–279
surfactant protein B deficiency: insights into surfactant function through clinical surfactant protein deficiency, 321(1):26–32
Wegener granulomatosis, 321(1):76–82
Lung transplantation
lymphangioleiomyomatosis, 321(1):17–25
surfactant protein B deficiency: insights into surfactant function through clinical surfactant protein deficiency, 321(1):26–32

Lupus nephritis, 72-year-old man with confusion and nonoliguric renal failure, 321(6):381–387
Lymphangioleiomyomatosis, 321(1): 17–25
Lymphocytic hypophysitis, in man presenting with hypercalcemia, 321(3): 206–208
Lymphoma
primary, of esophagus in chronically immunosuppressed patient with hepatitis C infection, 321(3):203–205
unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200

Methotrexate, Wegener granulomatosis, 321(1):76–82
Metyrapone, adrenal insufficiency in HIV infection: review and recommendations, 321(2):137–144
Microangiopathic hemolytic anemia, acute respiratory distress syndrome as major clinical manifestation of thrombotic thrombocytopenic purpura, 321(2):124–128
β_2-Microglobulin, increased excretion of *N*-acetyl-β-D-glucosaminidase and, in gestational week 30, 321(3): 168–172
Microscopic polyangiitis, presenting as idiopathic pulmonary fibrosis, 321(3):201–202
Mitral valve prolapse, review of literature, 321(6):401–410
Molecular conjugate vectors, poly-L-lysine-based molecular conjugate vectors: high efficiency gene transfer system for human progenitor and leukemia cells, 321(2):129–136
Mucociliary transport, disorders of ciliary motility, 321(1):3–10
Mycobacterial disease
nontuberculous, 321(1):49–55
psoas muscle abscess caused by *Mycobacterium tuberculosis* and *Staphylococcus aureus,* 321(6):415–417
Myeloperoxidase, absence of cross-reactivity to myeloperoxidase of antithyroid microsomal antibodies in patients with autoimmune thyroid diseases, 321(2):109–112

Nerves, role of impaired lower-limb venous innervation in pathogenesis of chronic fatigue syndrome, 321(3): 163–167
Nitric oxide, reversible sequestration by hemoglobin during hemodialysis in end-stage renal disease, 321(2): 113–123
Nonsteroidal anti-inflammatory drugs (NSAIDs), kidney and: safety of selective cyclooxygenase-2 inhibitors, 321(3):181–190
Norepinephrine, cardiac and renal dysfunction in chronic heart failure: relation to neurohumoral activation and prognosis, 321(6):359–366

Obesity
anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
appetite suppressants and valvular heart disease, 321(4):285–291
cardiovascular and pulmonary complications of, 321(4):213–214
cardiovascular complications of weight reduction diets, 321(4):280–284
coronary heart disease and, 321(4):215–224
hypertension and the heart, 321(4):242–248
management of obesity cardiomyopathy, 321(4):237–241
obesity cardiomyopathy, 321(4):225–236
pulmonary complications of, 321(4): 249–279
Olanzapine, case report of hypersensitivity syndrome induced by, 321(2): 156–158
Osteomyelitis, effect of bone biopsy in guiding antimicrobial therapy for osteomyelitis complicating open wounds, 321(6):367–371

Pain, recurrent abdominal, 321(5):352–354
Pancreatic neoplasm
glucagonoma syndrome, 321(5):306–320
recurrent abdominal pain, 321(5):352–354
Pancytopenia, 41-year-old, HIV-infected man with fever, pulmonary nodules, and, 321(3):191–194
Paraneoplastic syndromes
erythema gyratum repens, 321(5):302–305
glucagonoma syndrome, 321(5):306–320
Parathyroid hormone, calciuric response to dietary salt of Dahl salt-sensitive and salt-resistant male rats, 321(5):342–347
Pedal venous compliance, role of impaired lower-limb venous innervation in pathogenesis of chronic fatigue syndrome, 321(3):163–167
Pediatric patients, school absenteeism, parental work loss, and acceptance of childhood influenza vaccination, 321(3):178–180
Plasma renin activity, cardiac and renal dysfunction in chronic heart failure: relation to neurohumoral activation and prognosis, 321(6):359–366
Pneumonia. *See also* Lung disease
allergic bronchopulmonary disease caused by *Bipolaris hawaiiensis* presenting as necrotizing pneumonia, 321(3):209–212
Pneumocystis carinii pneumonia in patients without HIV infection, 321(1):56–65
Pneumothorax, lymphangioleiomyomatosis, 321(1):17–25
Polylysine, poly-L-lysine-based molecular conjugate vectors: high efficiency gene transfer system for human progenitor and leukemia cells, 321(2):129–136

Potassium, NSAIDs and kidney: safety of selective cyclooxygenase-2 inhibitors, 321(3):181–190
Pregnancy, increased excretion of *N*-acetyl-β-D-glucosaminidase and β_2-microglobulin in gestational week 30, 321(3):168–172
Prevention, in liver disease, 321(2):145–151
Primary ciliary dyskinesia, disorders of ciliary motility, 321(1):3–10
Prostaglandins, NSAIDs and kidney: safety of selective cyclooxygenase-2 inhibitors, 321(3):181–190
Proteases, α1-antitrypsyin deficiency: biological answers to clinical questions, 321(1):33–41
Psoas muscle abscess, caused by *Mycobacterium tuberculosis* and *Staphylococcus aureus,* 321(6):415–417
Pulmonary fibrosis
idiopathic, microscopic polyangiitis presenting as, 321(3):201–202
potential pathogenesis and clinical aspects of pulmonary fibrosis associated with rheumatoid arthritis, 321(1):83–88
Pulmonary hypertension, anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299

Reactive arthritis, poststreptococcal, in adults, 321(3):173–177
Renal disease
cardiac and renal dysfunction in chronic heart failure: relation to neurohumoral activation and prognosis, 321(6):359–366
impaired renal autoregulation: implications for genesis of hypertension and hypertension-induced renal injury, 321(6):388–400
livedo reticularis: underutilized diagnostic clue in cholesterol embolization syndrome, 321(5):348–351
NSAIDs and kidney: safety of selective cyclooxygenase-2 inhibitors, 321(3): 181–190
renal scars masquerading as complex masses in patient with vesicoureteral reflux nephropathy, 321(6):411–414
reversible sequestration of nitric oxide by hemoglobin during hemodialysis in end-stage renal disease, 321(2): 113–123
72-year-old man with confusion and nonoliguric renal failure, 321(6): 381–387
Respiratory distress syndrome
as major clinical manifestation of thrombotic thrombocytopenic purpura, 321(2):124–128
surfactant protein B deficiency: insights into surfactant function through clinical surfactant protein deficiency, 321(1):26–32
Rheumatic fever, poststreptococcal reactive arthritis in adults, 321(3):173–177

Rheumatoid arthritis, potential pathogenesis and clinical aspects of pulmonary fibrosis associated with, 321(1):83–88

Salt sensitivity, calciuric response to dietary salt of Dahl salt-sensitive and salt-resistant male rats, 321(5): 342–347
Sarcoidosis, clinical insights and basic science correlates, 321(1):99–107
School absenteeism, parental work loss, and acceptance of childhood influenza vaccination, 321(3):178–180
Scintigraphy, unexplained systemic symptoms and gallium-67–guided decisions, 321(3):198–200
Screening, prevention in liver disease, 321(2):145–151
Selective serotonin reuptake inhibitors, severe symptomatic hyponatremia during citalopram therapy, 312(2):159–160
Sexual dysfunction, in hypertensive patients treated with losartan, 321(5): 336–341
Shingles, zoster in patients infected with HIV, 321(6):372–380
Skin conditions
challenging skin disorders, 321(5):301
cutaneous reactions to chemotherapeutic agents, 321(5):327–335
erythema gyratum repens, 321(5):302–305
glucagonoma syndrome, 321(5):306–320
hidradenitis suppurativa and acne conglobata associated with spondyloarthropathy, 321(3):195–197
livedo reticularis: underutilized diagnostic clue in cholesterol embolization syndrome, 321(5):348–351
thalidomide and its dermatologic uses, 321(5):321–326
zoster in patients infected with HIV, 321(6):372–380
Sleep apnea
obesity cardiomyopathy, 321(4):225–236
pulmonary complications of obesity, 321(4):249–279
Sodium
calciuric response to dietary salt of Dahl salt-sensitive and salt-resistant male rats, 321(5):342–347
NSAIDs and kidney: safety of selective cyclooxygenase-2 inhibitors, 321(3): 181–190
Southwestern Internal Medicine Conference, impaired renal autoregulation: implications for genesis of hypertension and hypertension-induced renal injury, 321(6):388–400
Spondyloarthropathy, hidradenitis suppurativa and acne conglobata associated with, 321(3):195–197
Staphylococcal infection, psoas muscle abscess caused by *Mycobacterium tuberculosis* and *Staphylococcus aureus,* 321(6):415–417
Streptococcal infection, poststreptococcal reactive arthritis in adults, 321(3):173–177
Surfactant protein B deficiency, insights into surfactant function through, 321(1):26–32
Syndrome of inappropriate secretion of antidiuretic hormone, severe symptomatic hyponatremia during citalopram therapy, 312(2):159–160
Systemic lupus erythematosus, 72-year-old man with confusion and nonoliguric renal failure, 321(6): 381–387

Thalidomide, and its dermatologic uses, 321(5):321–326
Thrombotic thrombocytopenic purpura, acute respiratory distress syndrome as major clinical manifestation of, 321(2):124–128
Thyroid disease, autoimmune, absence of cross-reactivity to myeloperoxidase of anti-thyroid microsomal antibodies in patients with, 321(2): 109–112
Transplant recipients, *Pneumocystis carinii* pneumonia in patients without HIV infection, 321(1):56–65
Tuberculosis, psoas muscle abscess caused by *Mycobacterium tuberculosis* and *Staphylococcus aureus,* 321(6):415–417
Tumor necrosis factor, polymorphisms in candidate asthma genes, 321(1): 11–16

Valvular heart disease
appetite suppressants and, 321(4):285–291
mitral valve prolapse: review of literature, 321(6):401–410
role of transesophageal echocardiography in diagnosis and management of patients with aortic perivalvular abscesses, 321(2):152–155
Varicella-zoster virus, zoster in patients infected with HIV, 321(6): 372–380
Vasculitis
livedo reticularis: underutilized diagnostic clue in cholesterol embolization syndrome, 321(5):348–351
microscopic polyangiitis presenting as idiopathic pulmonary fibrosis, 321(3):201–202
Wegener granulomatosis, 321(1):76–82
Venous tone, role of impaired lower-limb venous innervation in pathogenesis of chronic fatigue syndrome, 321(3): 163–167
Vesicoureteral reflux nephropathy, renal scars masquerading as complex masses in patient with, 321(6): 411–414
Vitamin D, calciuric response to dietary salt of Dahl salt-sensitive and salt-resistant male rats, 321(5):342–347

Wegener granulomatosis, 321(1):76–82
Weight reduction
anorectic drugs and pulmonary hypertension from bedside to bench, 321(4):292–299
appetite suppressants and valvular heart disease, 321(4):285–291
cardiovascular complications of weight reduction diets, 321(4):280–284
management of obesity cardiomyopathy, 321(4):237–241
Wounds, effect of bone biopsy in guiding antimicrobial therapy for osteomyelitis complicating open wounds, 321(6):367–371

Zoster, in patients infected with HIV, 321(6):372–380
